-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Specification***

1. The disclosure is objected to because of the following informalities: on page 9, line 9, reference numeral "12" should read --19--.

Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "said at least one modular effusion inner and outer panel" in line 9. There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3726

5. Claims 1 and 4-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Smith et al. (US Patent 3,842,595) in view of Applicant's Admitted Prior Art (AAPA).

With regards to claims 1, 4 and 5, Smith et al. discloses a method of repairing a combustor liner wherein a combustor liner assembly is replaced on the field by a remotely fabricated modular combustor liner, the modular combustor liner including modular outer panel sub-assembly and inner panel subassembly, the modular combustor liner subassembly being removably affixed, column 5, lines 7-20 and 64-68 and column 6, lines 1-3 and 13-16. Although Smith et al. does not disclose replacing a non-effusion combustor liner with an effusion combustor liner, however Applicant, at pages 1-3 of the specification to be known as AAPA teaches the suitability of effusion combustor liner to prevent high temperature heat from damaging the combustor liner. Therefore it would have been obvious to one of ordinary skill in the art at the time the invention was made, to have replaced the non-effusion combustor liner of Smith et al. with effusion combustor liner as taught by AAPA, in order to prevent high temperature heat from damaging the combustor liner before it exits to the turbine section.

For claims 6 and 7, it is known to form inner and outer panel subassemblies comprising a plurality of inner or outer panels affixed to each other by welding or brazing.

***Allowable Subject Matter***

6. Claims 2 and 3 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
7. Claims 8-27 are allowed.

***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
